

PRODUCT CATALOG

A CUT ABOVE THE REST

FILEX HAS BEEN MANUFACTURING STEEL FILES FOR OVER 15 YEARS

With more than **400 customers** in **65 countries** we are among the largest file manufacturer in the world with a capacity of over 3 million files per month and over 300 different models to serve varying customers and purpose.

We are the only file company in the world to have backward integration of our cold and hot rolling mill where we make the best quality raw material to ensure consistent and high-quality steel files. We strongly believe that a consistent and controlled quality of steel makes a more durable file.

We look forward to your continued support and cooperation. Thank you for your confidence in our products and company.

RASPS

ESCOFINAS

Their coarse tooth formation facilitates greater stock removal, mainly for use on wood and soft metals.

La formación de sus dientes gruesos facilita de manera mayor el quitar de granos, principalmente para utilizar en madera y metales suaves.
